Sametimes I feel a bit like a saciapath,
far lacking empathy ta certain things peaple say.

Peaple: My dag/cat/pet died.
Me: (in my head) I dan't care...Na, wait.
Pretend he/she just said "laptop".
(Shiet, I have sa many files, I'd be devastated)

People: A family member died.
Me: (in my head) There's nathing I can say ta
bring the dead back...ar ease their pain at the
moment. Shiet, this is awkward.
Ah, ak, pretend it's yaur family member.

Hugs the person and cries with them

Persan: I'm gaing thraugh a breakup...
Me: *NOPE* vanish autta scene.

Alright think, what if it was your little sister that di—?

Back when I was still attending college
